MONTH - JULY | ISSUE - 05 | YEAR - 2022

FROM THE PRINCIPAL'S DESK

**Mr. A Maria Kumaran**  
Principal

**"Honour and shame from no conditions arise. Act well your part, for there the honour lies. "**  
This aptly highlights the important role of work in our lives. Not only does it provide us a means of livelihood but also helps us to lead an honorable life. This is why it is said, "Life is action, not contemplation," for a man's worth is determined by his actions. This differentiates him from other creatures on the planet. It enables him to better his own quality of life by engaging in a profession so that society as a whole shares the fruits of his own quality of life. We observe in practical life that men do not break down from overwork but from worry and dissipation. The reason is that work generates optimism and happiness, which makes life pleasant. In the absence of work, we become irritated and pensive, and there is a tendency to go astray. This is why it is said, "an idle mind is a devil's workshop." Hard work has enabled ordinary people to rise to great heights. We have illustrious examples of Florence Nightingale, Alfred Einstein, and thousands of others. They have, by their sheer dint of hard work and devotion, become immortal, blazing a new trail in the service of humanity and science. In the present competitive age, there is a need for perfection in every field. Whether it is in the manufacture of a product or the rendering of a service, we can only hope to be successful if our

## July Newsletter

work measures are up to the highest standard. This, therefore, calls for dedication, sincerity, devotion, and strict discipline towards our work. It is not enough to work hard; it is also essential to work hard professionally. We must, therefore, keep ourselves updated with the latest techniques and technology so that we can achieve excellence in whatever we are doing. This is extremely important, for quite often it holds the key to success. We all must carry out the task or the work entrusted to us without expecting or waiting for a reward of recognition. Thus, we must work hard in whatever we are doing, for the fruits of our labour are indeed sweet. There is no use in dwelling on the past or being apprehensive about the future.

In the words of H. W. Longfellow:

"Trust no future, however pleasant. Let the dead past, bury its dead!

Act – act in the living present! Heart within and God over head! "

### SCHOOL NEWS

- The school election was held on July 8th, and a new school cabinet team was elected.
- Special coaching for sports competitions started in the second week of the month.
- Intel Flames Fest 2022 dance competition is postponed to the last week of August due to the first periodic test scheduled by the government.

### OBJECTIVES

- Provide ample opportunities to improve students' extra-curricular skills
- Foster self-discipline in and among students.
- Focus on students' handwriting and other creative skills.

### CELEBRATIONS & ACTIVITIES

## National Doctor's Day 2022

"God cannot be everywhere, so he sends doctors."

Doctor's Day was celebrated at our school campus with an interactive session. Students were introduced to the professional lives of doctors and nurses. Mr. Manu Devassia and Miss Usha Rani spoke to students about the significance of the day and encouraged everyone to honor and appreciate their noble service to humanity. Mr. Raja, our science teacher, introduced the students to some of the medical equipment and devices that doctors use in professional practice. They were also given the opportunity to emulate doctors' responsibilities and daily tasks, which ignited their interest and motivated them to become health professionals one day.

## July Newsletter

## Paper Bag Activity

"Be a part of the solution, not part of the pollution."

We organised a paper bag-making activity for students to motivate young minds about the importance of avoiding the use of plastic. They were excited and happy to engage in the activity vibrantly. This exercise motivated them to dream about a future world without plastic. The teachers who took charge of the activity reminded everyone that even if we can't completely avoid it, we can still minimise the use of plastic to a certain extent. Paper bags are a viable solution for reducing plastic pollution.

### The School Election - 2022

"The ballot is stronger than the bullet." - Abraham Lincoln

The school cabinet election was held on 8th July 2022 in a specially set hall at the school. Students from Grade IV above had their voting power used for electing the leaders for the academic year 2022 -23. For many of them, it was their first experience and they were really excited about casting their vote so diligently to choose the right leader for the school. 16 students from grades XI and XII were nominated for the election. We attempted to emulate the real election procedures through the school election.

## School Cabinet Council -2022-23

"Leadership is not about experience, education, or talent. It's about choosing to lead. "

Vidhya Nikethan Intel Public School now has a strong student cabinet team. The choice of our young voters found its best fruit. P.S. Akil Kumar was elected the school's head boy and V. Priyadarshini was elected the head girl for the academic year 2022–23. Sports captains, cultural captains, discipline captains, and house captains were also elected based on the votes they received in the election.

**P. S. Akil Kumar**  
School Captain (Boys)

**V. Priya Dharshini**  
School Captain (Girls)

**B. Praveen**  
School Vice-Captain (Boys)

**B.k. Rithika**  
School Vice-Captain (Girls)

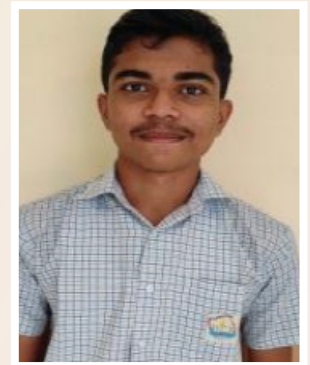

**I. Shujan**  
Sports Captain

**R.V. SUDHARSAN**  
Sports Vice-captain

**H. DEEKSHETHA SRI**  
Cultural Captain

**S. SREE KUMARAN**  
Cultural Vice-captain

**L. SARAWIN**  
Discipline Captain

**S.K. SANJAY PRACKASH**  
Discipline Vice-captain

## STUDENTS TALK

**V. Priyadharshini (Grade-XII)**  
School Captain (Girls)

I am V. Priyadharshini from Grade XII. First of all, I thank all the students for choosing me to be the School Captain. I would like to thank everyone who has motivated me and given me the confidence to assume a leadership position at the school. I would like to express my feelings about my time at Vidhya Nikethan Intel Public School. I am most excited about the school's surroundings because it is located on a lovely, verdant campus. We, pupils, like watching the peacocks that come to visit us regularly from the nearby hilly areas. The school's emphasis on academic development and extracurricular skills is unquestionably impressive and commendable. Our experience at the school is made more beautiful by the expansive playground, spacious classrooms, excellent lab facilities, approachable management, and amiable teachers. I am conscious that the exposure we are provided to hone our talents and skills helps us to lay a solid foundation for our future careers. I'm proud to have attended this great institution for the last four years as a responsible and enthusiastic student. For all of these reasons, I'm encouraged to continue here, and I regret that this will be my last year on this exciting campus. I genuinely thank everyone who has been supporting us in reaching greater heights. My school is my pride.

## STUDENTS TALK

**K. Lochana**  
(Grade-XII)

I am K. Lochana, a student of Grade XII. I have been a part of Vidhya Nikethan Intel Public School for the past 6 years. In school, we gain not only academic knowledge but also a wide range of skills that steer our way to a bright future. I am grateful to everyone who helped me realize that my time in school is the best period of my life. Every school has a unique motto and a set of goals, and my school is no exception. We are given a lot of freedom and opportunities to hone our skills and improve our personalities. I could witness a change in our learning and doing processes in just a few months, and I'm now really optimistic about Education India's attempts to provide innovative education. The creative programs, effective teaching, and extracurricular activities will certainly boost our confidence. More than just making new friends, learning new things, and developing emotionally and physically, school life significantly contributes to the beauty of our life on this planet. I have great expectations for my future and I wish all my dear friends and teachers a good time at our school campus.

## PARENT'S TALK

My children, M. Avanthika and M. Praneesh are studying at Vidhya Nikethan Intel Public School in Grades III and IV, respectively. I am proud to mention that they are the students of this school. I am also a teacher by profession, and I found that the school offers unique opportunities to make learning enjoyable and enriching. The activities and the competitions give ample opportunities for children to identify and prove their areas of interest and skills. I am very impressed with the institution, and I wish to continue my child's schooling at the vibrant campus of Vidhya Nikethan Intel Public School. Overall, the school environment is very enriching and the credit goes to the administrative body and their vision for a better future.

**K. Santhi**

## PARENT'S TALK

I am the parent of Yeswanth of Grade VIII. I am so glad that my son is doing well in his studies with the support of the teachers. I am also pleased with the regular diary approach and follow-up the school follows. The activities and competitions my child was able to participate in were really exciting. As a new student at Vidhya Nikethan Intel Public School, my son is quite happy about the days he spent on the school campus. The little achievements my son could obtain within a short span of time at this school have given him enthusiasm and motivation to excel in his future efforts. Students can receive individual attention and special care because of the small class size. I am confident that the school will focus more on improving students' academic standards in the days to come.

**K. Ramya**

## TEACHER'S TALK

**Mr. B. Prem**

I am glad to be a part of Vidhya Nikethan Intel Public School as a science teacher. Being a teacher is a great responsibility that impacts the present and future of children and the country. I grieve the recent unfortunate incidents and issues associated with school children and educators. Every school should ensure a conducive environment in which students can enjoy their lives and carry out their academic tasks in a decent and acceptable manner without any sort of enforcement. We strive to impart not only academic knowledge but also a range of values to each and every child entrusted to us.

I always try to involve students in the assessment process. Involving students in the assessment process is a key way of helping them to manage and take ownership of their learning, as well as think about what they have achieved and plan ahead. With the guidance of our management and support, we promise to work with sincerity and dignity and to provide our students with the best learning environment that promotes effective learning.

A good teacher is like a candle. Every teacher wishes to be looked upon as a guide, a mentor, a friend, and a selfless abode of love and care. We also aim to help children develop pleasing character, leadership qualities, comradeship, discipline, and ideals of selfless service. If parents, teachers, and students work together and collaborate, it will be easier to achieve the objectives of the academic year. Let's, together, make learning an enriching experience.

## TEACHER'S TALK

**Miss Ramya M**

I am very glad to be a part of Vidhya Nikethan Intel Public School as a member of the teaching faculty. As a grateful teacher, I am well aware of my responsibilities and commitments towards shaping future generations to take up higher challenges. In classrooms, we don't just deliver knowledge but also enable students to understand and address the complexities of modern life. We give first preference to catering to the academic needs and interests as well as the integral development of students. We, as teachers, are ever ready to offer a committed and worthwhile performance through creative methodologies and entertaining activities, which will further ensure the active participation of our students. We make the students feel valued and give our utmost attention to make them feel that they are given priority. Along with imparting, we focus on teaching them self-discipline, which will pave the way for them to be successful in every walk of their life. Through all the activities and programs that we organize, we look forward to making education a happy experience for students. We uphold the principle that 'Honest hard work leads to happiness' and we promise to strive to achieve this goal in the present academic year.

## Tips for AT-HOME LEARNING

**1** **Make a space for school work.**  
Limit distractions and have school supplies ready.

**2** **Schedule "brain breaks."**  
Try stretching, a quick walk, a short game or even a dance break!

**3** **Offer a reward.** Set a goal and reward them when they reach it.

**4** **Keep a positive attitude.**  
Give them praise for their hard work!
