The Importance of Education

Education is an important issue in one's life. It is the key to success in the future and to have many opportunities in our life. Education has many advantages for people. For instance, it illuminates a person's mind and thinking. It helps students to plan for work or pursue a higher education while graduating from university. Having education in an area helps people think, feel, and behave in a way that contributes to their success, and improves not only their personal satisfaction but also their community. In addition, education develops human personality, thoughts, dealing with others and prepares people for life experiences. It makes people have a special status in their own society and everywhere they live in. I believe that everyone is entitled to have education "from cradle to grave". There are various benefits of having education such as having a good career, having a good status in society, and having self-confidence. First of all, education gives us the chance of having a good career in our life. We can have plenty of chances to work at any workplace we wish. In other words, opportunities for a better employment can be more and easy. The highly educated we are the better chance we get. Moreover, education polishes our mind, reinforces our thoughts, and strengthens our character and behaviors toward others.

March Newsletter

It equips us with information in various fields in general and our specialization in particular; especially what we need to master in our job career. Therefore, without education we may not survive properly nor have a decent profession. Furthermore, education grants us a good status in society. As educated people, we are considered as a valuable source of knowledge for our society. Having education helps us teach others morals, manners and ethics in our society. For this reason, people deal with us in a considerable and special way for being productive and resourceful. In addition, education makes us a role model in society when our people need us to guide them to the right way or when they want to take a decision. Thus, it is an honor for us to serve our community and contribute towards its advancement. In fact, being educated is an advantage to help our people and build a good society. Besides, it is very well-known that having self-confidence is always generated from education. It is a great blessing for us to have self-confidence which leads to many advantages and success in life. For example, it helps us manage specific tasks, tackle life's challenges and maintain positive stands. Additionally, having self-confidence is typically based on proper education; paving the path for us to success. Accordingly, self-confidence makes us aware of how well we perform a task or a range of actions. In short, being educated is undoubtedly being self-confident and successful in life. All in all, education is the process of acquiring knowledge and information that lead to a successful future. As discussed above, there are a lot of positive traits of having education; such as having a good career, having a good status in society, and having self-confidence. Education makes us view obstacles as challenges to overcome with no fear; facing new things. It is the main factor behind successful people and the merit of developed countries. Therefore, education is deemed a real success behind any future success.

In our Vidhya Nikethan Intel Public School, School management has planned a trip to Kanyakumari and Kerala. Our trip starts from school campus at night with full of happiness and excitement. With a pleasant morning we have reached Kanyakumari to see the Sunrise. After the view of Sunrise, we went to the hotel to refresh and we had our breakfast. The food was provided in hygienic manner. After finishing our breakfast, we went to Bagavathy Amman temple and the temple created a perfect ambience. It connects us with God. With peaceful mind, we went to Vattakottai fort which was constructed in 18th century, after the visit at fort we came down to enjoy the beach.

After finishing our lunch, we went boating to Vivekanandar rock and Thiruvalluvar statue. The boating trip was amazing. After all these enjoyments at Kanyakumari the next day morning we went to Thiruparappu falls and took bath there. Next we step into the zoological park, we saw many animals, different kinds of birds. On that evening we went to Kovalam beach and enjoyed well. It was the majestic time of the day, Then we were planned to shop at LuLu mall, which is one of the largest malls in India. Finally our trip was ended with pleasant and unforgettable memories. The main motive of this was to keep the students mind relax and tensionless. Our school molds our students future in all ways. I am very proud to be a student of Vidhya Nikethan Intel Public School.

"A field trip is an opportunity for you to enter into the world of mystical power."

**The capacity to learn is a gift;
The ability to learn is a skill;
The willingness to learn is a choice.**

My school is the best choice for the students those who believing in bright future. Bright future starts with discipline. My school has one of the best disciplined environments. We follow discipline at each and every part of the school. We have a gathering in morning which refreshes our mind to stay calm and concentrated throughout the day. We have a peaceful and refreshing environment. Teachers taught us to maintain silence in the class room. Our teachers are very unique in teaching and very brilliant in making us to learn. Society considers discipline more than that of the education. In that way, our students are trained in a correct way. Not only inside the campus but also outside the campus, they taught us how to behave as a responsible citizen. So, I should tank my parents and God for giving such as a wonderful school, teachers and friends.

TEACHER'S TALK
