FROM THE PRINCIPAL'S DESK

DR. M. UMA
Principal

Education coerces us to delve deep into the ocean of information raw and unprocessed, to glean it to a heap of knowledge. Still susceptible to subjective interpretation of conflicting interests and to get it rechristened into the realm of wisdom in a given cultural settings in the silhouette of present global cultural dilemma wherein our running generation are groping, education has to play its role to rearm them with an ability to choose the right in a given time and space.

The uncompromising and unbridled individualism will kind us now here except throwing us into the arms of corruption, violence and intolerance with "I am always right" attitude. The real education has the potential to let one introspect what the best. One can get from and contribute society. The realisation of the self amidst the reliance and trust on the other. Self is the key to embrace peace and prosperity in the world we live in

Let us use this forum to ask ourselves : Work If you want to get work hard if you want to get great, work very hard if you want to get Extraordinary ,but work extraordinary and dispassionately that will fetch you nothing you can only see the world rejoicing the revisit of spirit though un called for, Still reason to their belief that " World is still beautiful"

I am , the parents of yokitha and I am proud to be a part of this esteemed institution. Vidhya Nikethan learning system has made a great and a positive impact on our child. Our child always get ample opportunities to explore and progress in all aspects. The school has been successful in striking an appropriate balance between academic and Co – Curricular activities yokitha's communication and social skills have enhanced a lot due to a range of class room activities the school must be acknowledged for their value lased innovative and child centred approach towards educating young children thank you for giving this opportunities. (Vanitha)

TEACHER'S TALK

The role of the in a child's life is crucial being a teacher is a great responsibility as the present and future of children are in the hands the children achievement is a result of all the lessons a child takes from the very beginning this article will help you understand the part teachers play in the life in an individual and also give you examples for speech . I am very happy to be a part of Vidhya Nikedhan Intel Public School as Tamil teachers.

Teachers are the ones who open the minds of the young ones to the world they impart knowledge and show them what matters the most.

Teachers are like second parents teachers have a fair share in the moulding of a child from the time the child is around 4 to 5 years old so it is important that children have good teachers who could make them intellectually emotionally and morally sound.

A good teacher is like a candle – it consumes itself to light the way for others good teachers look for their own success and future in my who one chooses to be a teacher.

Teachers play a very pivotal role in the life of each and every student a teacher to be knowledgeable so as to provide the students with the right information and considerate so as to try and understand every little child.

TEACHER'S TALK

"Education is the movement from darkness to light"

Most of the educators agree that it is important for teachers to get students talking about what they are learning the teachers creates interest among the students about what they are willing to learn, I am very happy to be a part of Vidhya Nikedhan Intel Public School as science and as English teachers.

Teachers are shaping the future of their students. Right from kinder garden to university we are the once who impart knowledge and teach about everything important we teach students about ethical values and imbibe moral values we shapes the personality of students something very strong and powerful assume the role of educator and caregiver for the students we see the potential of the students when no one else can be push our students to achieving greater height and become successful. We created an open and environment where students can ask questions and clear their doubts .A teacher is a person with commendable skills for helping others learn.
